## Ring Wall II

The new Helo Ring Wall is an impressive natural stone heater, well suited for family-sized or even small residential saunas. The novelty heater is installed to the wall and is therefore a real space-saver.

Heló Ring Wall is an excellent choice for those who appreciate practicality, classy design and the soft pleasant steam of a natural stone heater. This heater both delivers the benefits, and only takes up less than a half square meter of floor space – and that's including safety clearances!

The new Heló Ring Wall stands out first by its open design, with the irregular natural stones and the geometric brushed steel housing complementing each other beautifully. And when a ladle of water is thrown onto the stones, the heater surrounds you with pleasant and smoothly soft steam.

Heló Ring Wall heaters are suitable for saunas with a capacity of 4-13 m<sup>3</sup> and with a minimum height of 190 cm. The Ring Wall comes with in built controllers, timer and thermostat.

Heló Ring Wall is 445 mm wide, 335 mm deep and 525 mm high, and takes 37 kg of heater stones.

### Statistics: Ring Wall 45 STJ

Requires 20amp single phase, power

Sauna room size: 4-6m<sup>3</sup> (4.5kW)

Dimensions of heater: height 445mm x length 550mm x width 350mm

Weight of stones: 37kg

Minimum gap to side wall: 50mm

### Statistics: Ring Wall 60 STJ

Requires 32amp single phase, power

Sauna room size: 5-9m<sup>3</sup> (6kW)

Dimensions of heater: height 445mm x length 550mm x width 350mm

Weight of stones: 37kg

Minimum gap to side wall: 70mm

### Statistics: Ring Wall 80 STJ

Requires 32amp single phase, power

Sauna room size: 8-13m<sup>3</sup> (8kW)

Dimensions of heater: height 445mm x length 550mm x width 350mm

Weight of stones: 37kg

Minimum gap to side wall: 100mm
