

Sauna & Steam Outdoor Sauna

Nordic warmth, designed for the Australian outdoors.

PREMIUM IN THE DETAILS

Create a private backyard retreat with this premium outdoor sauna, combining a black Thermo Pine exterior, warm alder interior, full-height grey privacy glass and softly integrated lighting. Its solid cross-laminated timber structure provides strength, stability and reliable heat retention. Delivered flat-packed in just two boxes, this prefabricated home sauna is designed for straightforward on-site assembly. The interior is crafted from alder, one of the Nordic region's traditional sauna timbers, valued for its low resin content, smooth surface and dimensional stability under changing heat and humidity.
